New Era Global Enterprises

About Us

Founded in 2019, New Era Global Enterprises, LLC (NEGE LLC) is a minority-owned technology and healthcare services firm delivering mission-ready solutions to city, county, state, and federal agencies.

With expertise in systems engineering, software development, cybersecurity, compliance, project management, clinical staffing, and health IT, NEGE LLC integrates technical excellence with a security-first mindset to meet the evolving needs of government and enterprise clients.

Differentiators

- Dual-domain expertise delivering both advanced technology services and healthcare/clinical staffing under one roof.
- Proven capabilities in Model-Based Systems Engineering (MBSE) and large-scale systems integration for mission-critical operations.
- Security-first methodology, ensuring NIST, FISMA, and FedRAMP compliance in every project.
- Hands-on experience providing clinical nursing and health IT solutions alongside traditional IT and engineering.
- Agile, minority-owned SDB with ability to rapidly scale and adapt for both public and private sector engagements.

Core Services

- Needs Identification and Analysis
- Stakeholder Analysis
- Concept Development and Feasibility Study
- Requirements and Systems Engineering
- Systems and Software Development
- Systems and Software Interface Development
